This is in response to the renewed petition under 37 CFR 1.47(a) filed on 03 December 2007.

DISCUSSION

In a Decision mailed on 28 September 2007, the petition under 37 CFR 1.47(a) filed on 11 July 2007 was dismissed, without prejudice, because

Petitioner has provided a "Declaration..." signed by Erwin Oser, which references attached documentary evidence and suggests that a copy of the application papers and a declaration were sent to Mr. Rannow. However, inspection of the English translation of the letter to Mr. Rannow, dated 11 (or 2) November 2006, reveals that it does not explicitly identify the application numbers for which documents are attached. Rather, it merely alludes to "the three patent applications that have been filed or amended in the USA." Therefore, it is uncertain whether or not the correspondence sent to Mr. Rannow in November of 2006 in fact included a copy of the instant application papers, and an oath or declaration directed to this specific application. As such, it would not be appropriate at this time to conclude that requirement (2) has been satisfied.

Upon review of the instant renewed petition, petitioner is found to have satisfied requirement (2). Therefore, all of the requirements of 37 CFR 1.47(a) have now been satisfied.

DECISION

The petition under 37 CFR 1.47(a) is GRANTED.

As provided in 37 CFR 1.47(a), a notice of the filing of this application will be forwarded to the non-signing inventors at their last known addresses of record.

A notice of the filing of the application under 37 CFR 1.47(a) will be published in the Official Gazette.

The application is being returned to the National Stage Processing Branch for processing as the U.S. National Stage of the above-identified international application. Its date under 35 U.S.C. 371(c)(1), (2) and (4) is **11 July 2007**.
